

Project WET Workshop

Professional Development

Educate. Empower. Act. Project WET (Water Education for Teachers) reaches children, parents, educators, and communities of the world with water education. We **invite you to join us** in educating children about the most precious resource on the planet — water

About the Workshop

A Project WET workshop is a fun, interactive training session that engages educators in multidisciplinary activities including science, math, water resources, chemistry, physics, life science, earth systems, natural resources management, language arts, history, culture and art.

About the Facilitator

Kathryn S. Watson is the Montana Project WET Coordinator. She has coordinated water quality, land use and watershed management policies with environmental organizations, agencies and the general public; and has delivered water education curriculum to student and adult audiences for over five years. Her educational background includes a BS in Biology and a Masters in Environmental Management, Economics and Policy from Duke University.

Scholarships

Please let us know if the registration fee poses a hardship for you or your school.

Scholarships are available thanks to the generous donations of our partners.

What Teachers are Saying

"Excellent resource materials to further develop units. I love the energetic instructors."

- Teacher, Bonner, MT

"I will never look at rivers, streams and creeks the same way again...This is truly the best course I have ever taken." - Teacher, Gifted and Talented Program, Missoula Public Schools

"I know my time spent with Project WET will be beneficial for my students, this workshop could have easily been extended to two days!" - Teacher, Billings, MT
